EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Wechkin on 1 April 2003.

The application has been amended as follows:

In line 8 of claims 1 and 20 delete --preferentially--.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or disclose a method for processing a microelectronic substrate, comprising: disposing an electrolytic fluid adjacent to a conductive material of the microelectronic substrate, the conductive material having a first surface in a first plane and a recess in the first surface, the recess being bounded by a second surface in a second plane, the conductive material further having a corner between the first and second surfaces; removing at least part of the conductive material from the corner by positioning first and second electrodes in fluid communication with the electrolytic fluid and coupling at least one of the electrodes to a source of electrical potential; and as the at least part of the conductive material is removed from the corner, attracting less electrical current to the corner to reduce a rate at which conductive material is removed from the corner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
